

SIEMENS SILVER AWARD

LRT technologies GmbH, Nuernberg

Siemens AG awards **LRT technologies GmbH** three out of five stars.

This is a result of implementing an Energy and Environmental management system for conservation purposes.

LRT technologies GmbH has qualified for **Silver Status** in the SIEMENS Energy Efficiency Program for Suppliers evaluated by TÜV Süd (attestation dated 03.12.2012) and considers aspects of relevant energy efficiency and environmental standards as ISO 50001, DIN 15900, DIN 16427, ISO 14001, GHG Protocol.

The assessment was conducted by SIEMENS AG. The results were based on the data provided by the client and covered the following scope:

- Energy Management Check resulting from a basic and management questionnaire and a remote consistency check and suggestions
- Energy Efficiency check resulting from a basic and technical questionnaire and a following consistency check and suggestions
- Environment check based on an environmental questionnaire and a carbon footprint assessment
